MEMORANDUM TO AEDOGMA FILE:

11.9.59

OM: [ ] SR 2 CE

BJECT: Investigation of AEDOGMA

[ ] of CI/Ops called saying he had read my memo to file on talks we had with various offices on AEDOGMA. He was surprised that the matter had again created a stir—especially the UPSWING contact—and said he felt this should be pursued to a conclusion, once and for all. He mentioned having worked on this in the past—far back as 1940 and expressed continuing interest. We told him we were in process of preparing something in the field outlining our views and trying to get this thing on right track and that we would solicit views from all concerned prior to undertaking the necessarily lengthy and difficult review which he felt it required.
